Welcome to PCCP DIVISION

Resonance launched Pre-foundation Career Care Program (PCCP) Division in 2006 with the philosophy of an early start. As the name suggests, the division aims at giving the edge to the students for Career Examinations like JEE (Main + Advanced), NEET, CA/CS/CLAT etc. before entering into senior secondary classes.

In last 18 years, we are proud to offer comprehensive coaching for students in two segment of classes, namely, Sub-Junior classes (5th – 8th) and Junior classes (9th – 10th). Focussing on both olympiad preparation & board exam success. Our interactive learning approach ensures that students receive a well-rounded education that prepares them for both a academic challenges and real world applications.

In junior classes, we focus on preparing student's for various competitive examinations such as NSEJS (National Standard Examination in Junior Science), IJSO (stage -1 of International Junior Science Olympiad) IOQM/ PRMO (1st stage of International Mathematics Olympiad) & other Olympiads. Additionally, we also help them prepare for their board examinations by simulating real-life mock situations to familiarize them with the latest changes in the exam format.

In Sub-Junior classes, the targeted competitive examinations are National Mathematics Talent Contest (NMTCT), Mathematics and Science Olympiads and other private Olympiads which can be cleared by following CBSE curriculum of the particular class. Other than the competitive examinations, we build conceptual understanding in all the subjects by following NCERT curriculum and conducting various academic workshops to make students understand the application of several concepts.

In addition to teaching academic concepts, we also focus on developing life skills in Sub-Junior Classes, following WHO guidelines. These skills encompass social, critical thinking and emotional abilities.

Academic Excellence

Pre-defined Yearly Planner

The yearly planner consists of arrayed chapters for each of the subjects, test grid of the whole session with syllabus mentioned in it, holiday schedule, homework checking schedule etc.

Scientifically Designed Chapter Modules

Classroom teaching is supplemented with futuristic study material in the form of chapter modules, which provide sequential theory of a particular chapter with exercises to check the progress of students, pictorial and textual summaries.

Regular Classroom Discussion of Homework Questions

Regular homework and active participation in classroom discussion increases the likelihood of success in competitive exams.

Student Analysis and Performance Evaluation Report (SAPER)

Students can check his/her performance and rank generated for each subject at the website of Resonance. The SAPER can be found at www.pccp.resonance.ac.in, under student zone.

School Examination Preparatory (SEP) Sheets

These worksheets are to be solved and submitted for checking, after completion of each chapter.

Transforming Education

In classrooms, faculty members used latest technologies to deliver topics in the most interesting and possible manner to maximize the absorption of concepts.

Daily Practice Problems (DPPs)

In addition to chapter modules, students are given daily practice problem (DPPs). Each DPPs includes questions from multiple chapters that have been taught previously even if they have already covered in earlier DPPs.

All India Testing

The concepts learnt and practiced by the students are tested through regular tests mentioned in the yearly planner and conducted among the students of Resonance across all the study centers. This helps students to check their performance at the national level.

Clinic Classes and Doubt Classes

These classes are offered year-round, allowing student's to catch-up. Whenever they feel behind.

21st Century Support and Communication Mechanism

Psychological cum Academic Counselling

At times, students get stuck within their personal problems and need guidance to overcome that situation. In this scenario, our holistic approach focuses on improving your overall well being including mental health, self esteem & motivation.

Mentor to each Student

A mentor is allocated to every student. A mentor seeks to help the student, optimize an educational experience & to assist the student's socialization into a disciplinary culture.

Motivational Sessions

There is provision of motivational classes within the curriculum which is required to keep the students on track and motivate them to aspire for success. As students of this age require continuous guidance, these motivation sessions help them to set their targets and fix the execution guidelines to achieve them.

Parent Teacher & Student Meeting (PTSM)

There is a provision of PTSM which ensures periodic communication among the parents, teachers and students. Through this meeting, parents get feedback about the strengths and weaknesses of their ward and teachers get feedback about their teaching. This mutual feedback system helps in improving the quality of academic delivery.

Recorded Lecture

Learn at ones pace with our recorded video lectures, allowing you to pause, rewind and review the content as many times as needed. Students can access these videos on our online learning platform (**ResoSIR**) app.

WORKSHOPS

The purpose of workshops is to provide a platform for active learning. Which goes beyond the textbooks in three ways; higher application of concepts in competitive examinations, nurturing skills acquired over the time of passive learning and applying the concepts through various activities and experiments.

These workshops serve as platform to students for upgrade their knowledge level in a way that enhances their ability to perform in various domains.

We offers several types of such workshops throughout the year. Preparation for these exams is quite tough but with perfect guidance, it can be attained easily.
