PRE-FOUNDATION
CAREER CARE PROGRAMS

Class VIII to X

ABOUT PCCP DIVISION

Resonance launched Pre-foundation Career Care Programs (PCCPs) Division in 2006 with the philosophy of an early start. As the name suggests, the division aims at giving the edge to the students for Career Examinations like JEE (Main + Advanced), NEET/ AIIMS, CA/CS/CLAT etc. before entering into senior secondary classes.

In last 12 years, PCCP division has evolved significantly and works in two segments of classes, namely, Sub-Junior classes (V – VIII) and Junior classes (IX – X). The two segments have different teaching methodologies and so are their targets.

In junior classes, the targeted competitive examinations are National Standard Examination in Junior Science (NSEJS, 1st stage of International Junior Science Olympiad (IJSO)), National Talent Search Examination (NTSE), Pre Regional Mathematics Olympiad (PreRMO, 1st stage of International Mathematics Olympiad). In addition to these competitive examinations, we also prepare students for class X board examination, according to the latest changes made in it, by exposing them to mock situations like that of the real one.

In Sub-Junior classes, the targeted competitive examinations are National Mathematics Talent Competitions (NMTTC), Private Mathematics and Science Olympiads and other private Olympiads which can be cleared by following CBSE curriculum of the particular class. Other than the competitive examinations, we build conceptual understanding in all the subjects by following NCERT curriculum and conducting various academic workshops to make students understand the application of several concepts.

Other than the academic delivery of concepts in Sub-Junior classes, we also aim at inculcating life skills in students as per the current guidelines of World Health Organization (WHO). The life skills include social skills, thinking skills and emotional skills. These skills are enhanced through a variety of activities conducted at the campus of each study center of Resonance.

ACADEMIC EXCELLENCE

Pre-defined Yearly Planner

The yearly planner consists of arrayed chapters for each subjects, test grid of whole session with syllabus mentioned in it, holiday schedule, homework checking schedule, etc.

All India Testing

The concepts learnt and practiced by the students are tested through regular tests mentioned in the yearly planner and conducted among the students of Resonance across all the study centers. This helps students to check their performance at the national level.

Student Analysis & Performance Evaluation Report (SAPER)

Students can check his/her performance and rank generated for each subject at the website of Resonance. The SAPER can be found at www.pccp.resonance.ac.in, under student zone.

Scientifically Designed Chapter Modules

Classroom teaching is supplemented with futuristic study material in the form of chapter modules, which provide sequential theory of a particular chapter with exercises to check the progress of students, pictorial and textual summaries.

School Examination Preparatory (SEP) Sheets

These are worksheets which are to be solved and submitted for checking, after each chapter.

Regular Classroom Discussion of Homework Questions

After classroom teaching, homework is given to students, which is discussed in the next class of that particular subject. Students who do regular homework and participate in classroom discussion are likely to succeed in the competitive examinations.

Clinic Classes & Doubt Classes

Clinic and Doubt classes are for those students who miss out on classes due to unavoidable circumstances or late joining. These classes run throughout the year so that students can catch up anytime they feel left out.

Enhanced Classroom Teaching with Learning Aids

In classrooms, faculty members employ latest technologies to deliver topics in the most interesting and possible manner to maximize the absorption of concepts.

Daily Practice Problems (DPPs)

In addition to chapter modules, DPPs are given to students. Each DPP includes questions from all the chapters taught before it, even if they've already been covered in earlier DPPs.

21ST CENTURY SUPPORT AND COMMUNICATION MECHANISM

Psychological cum Academic Counselling

At times, students get stuck within their personal problems and need guidance to overcome that situation. In this scenario, we conduct one-to-one psychological-cum-academic counselling sessions for these students in which their problems are discussed and customized solutions are given to them.

Motivational Sessions

There is provision of motivational classes within the curriculum which is required to keep the students on track and motivate them to aspire for success. As students of this age require continuous guidance, these motivation sessions help them to set their targets and fix the execution guidelines to achieve them.

Parent Teacher & Student Meeting (PTSM)

There is a provision of PTSM which ensures periodic communication among the parents, teachers and students. Through this meeting, parents get feedback about the strengths and weaknesses of their ward and teachers get feedback about their teaching. This mutual feedback system helps in improving the quality of academic delivery.

Student Observation Report (SOR)

In case, any student, out of ignorance, indulges in any disobedient act or doesn't complete the allotted homework properly, faculty members fill SOR which is communicated to the parents for their action and discussion with the staff of Resonance.

Student Relationship Manager (SRM)

It is basically a WhatsApp contact number used to connect with parents to inform them about daily updates, test syllabus information, homework information, workshop notification, competitive examination registration etc. The information is floated through WhatsApp images and text messages. SRM ensures that parents do not miss out on any of the information being shared by Resonance.

Google Calendar

The yearly course planner is converted into Google Calendar and is available for parents to sync it with calendar in their device. Through this calendar, parents get alerts of the upcoming events like tests and activities.
