### Pre-defined Yearly Planner

Students are provided with a yearly planner consisting of arrayed chapters for each of the subjects, test grid of the whole session with syllabus mentioned in it, holiday schedule, homework checking schedule etc. This planner helps students and parents in planning the strategy for studies and progress ahead.

Students can check his/her performance and rank generated for each subject at the website of Resonance. This helps students to identify their strength and weakness. **The SAPER can be found at [www.resonance.ac.in](http://www.resonance.ac.in), under student zone.**

### Student Analysis and Performance Evaluation Report (SAPER)

### Scientifically Designed Chapter Modules

Scientifically  
**PROVEN**

Classroom teaching is supplemented with futuristic study material in the form of chapter modules, which provide sequential theory of a particular chapter with questions at regular intervals to check the progress of students. At the end of the chapter, pictorial and textual summaries are given for a quick revision at the time of tests. After the summaries, exercises are given with carefully selected questions of different types and difficulty levels for comprehensive practice.

In addition to chapter modules, DPPs are given to students. Each DPP includes questions from all the chapters taught before it, even if they've already been covered in earlier DPPs. These problems need to be solved within a mentioned time interval. It helps in boosting revisions and practice of time management at home.

### Daily Practice Problems (DPPs)

### Regular Classroom Discussion of Homework Questions

After classroom teaching, homework is given to students, which is discussed in the next class of that particular subject. The immediate practice of a learned concept enhances the chances of absorption of the concept. Students who do regular homework and participate in classroom discussion are very much likely to succeed in the competitive examinations.

The concepts learnt and practiced by the students are tested through regular tests mentioned in the yearly planner. These tests are conducted among the students of Resonance across all the study centers. This helps students to check their performance at the national level. These tests are conducted in objective as well as subjective manner periodically and keeps a check of both current as well as previously taught syllabus.

### All India Testing

### Parent Teacher and Student Meeting (PTSM)

There is a provision of PTSM which ensures periodic communication among the parents, teachers and students. Through this meeting, parents get feedback about the strength and weaknesses of their ward and teachers get feedback about their teaching. This mutual feedback system helps in improving the quality of academic delivery.

## Online Practice:

We believe it is a positive change. Online exam saves time, Candidates can edit & re-edit answers multiple times, A coloured panel to keep one updated about the status of the exam, Less the scope of printing errors, Evaluation process gets better and error free.

**Aligned with our Vision – ‘Excellence in career education’ and Mission – ‘Practice, Persistence and Performance’,** Resonance as one of India’s leading educational institute, with proper planning and execution, would leave no stone unturned to make sure that our students stand tall in all the upcoming examinations.
